Objective

- I am a second year Computer Systems Technician student seeking a Front End Development Co-Op position. My dependable and mature demeanor allows me to apply well-rounded skills in problem solving, organization, communication as well as an ability to learn quickly. I believe that my previous experience as a React-Native Co-Op Developer and High Priority Security Operator, along with my positive attitude and enthusiasm, I would be an asset to your company.

Summary of Skills

- Proficient in designing responsive mobile applications with React-Native and React-Native Redux Toolkit acquired through my recent role as a React-Native Co-Op Developer.
- Effectively uses front-end development such as HTML and CSS acquired through multiple class projects averaging above 85% in HTML and CSS.
- Collaborative team player with a strong ability to work in team-based environments acquired through my recent role as a React-Native Co-Op developer and multiple group projects.
- Exceptional attention to detail acquired through monitoring security for over 700 sites as a High Priority Security Operator.
- Strong adherence to instructions as demonstrated through my ability to follow prototypes on a collaborative interface design program (e.g., Figma).

Technical Skills

- | | | |
|----------------|--------------|----------------|
| • React-Native | • JavaScript | • Figma Design |
| • HTML | • C# | • Canva Design |
| • CSS | • PHP | • Shopify |
